Quarter Dates 2027 to 2029

The update periods and deadlines for 2027 to 2028 and 2028 to 2029, with the weekday of each deadline.

Deadlines are the same for standard and calendar periods. You can send an update from the end of its period up to and including the deadline. GOV.UK does not say that a deadline falling on a weekend moves, so treat the last working day before it as your date. For a start on 6 April 2027 with calendar periods, the first period begins on 1 April 2027. The 2028 to 2029 calendar dates assume you already used calendar periods in 2027 to 2028: if you switch from standard to calendar periods in 2028 to 2029, your first calendar period starts on 6 April 2028 (regulation 13(2)(a)). Once chosen, calendar periods carry on in later years until you withdraw the election (regulation 11).
